"Our Challenge to the A. P. A."

"The beneficial effects of the adoption of these salutary measures of public policy are already plainly apparent. Each day gives evidence of returning prosperity. Mills closed by the effects of Republican legislation are reopeniong and their operatives are returning to work. Merchants report a largely increasing volume of business, and manufacturers are prepared for that period of prosperity which the readjustment of the tariff and cheaper raw materials certainly assure."

We concur with President Cleveland that the new Tariff law does not embody the full measure of tariff reform, but with him also we indorse its provisions for cheaper and free raw materials and lower taxes, as a substantial recognition of Democrtic principles, and we bespeak for the law an impartial trial, confident that its successful operation will convince the people of the wisdom of Democratic policy and induce them to demand its proper extension.

"While favoring, therefore, such wise modification and readjustment of particular schedules, by the enactment of separate bills, as future conditions and the fulfilment of Democratic pledges may require, we deprectate, pending a fair trial of the law by actual operation, any further general tariff revision, which under present conditions would be likely to retard improvement in business, and thereby prolong the evils brought upon the country by Republican folly. Election Law Repealed.

"We commend the enactment by the Democratic Congress other measures of public importance demanded by the people, particularly the repeal of the Federal Elections haw and the stringent legislation for the suppression of Trusts,

"We reaffirm the declaration of principles contained in the Democratic National platform of 1392, and we reiterate the expressions of recent State Democratic platforms in favor of honest money, economy inpublic expense, just and liberal provision for all diabled Union soldiers, their widows and dependents, and strict adherence to the true principles of civil-service reform. "We commend the efforts made by the Senators and Representatives in Congress from this State to avert the imposition of the present income tax, and we record our regret that the reform of the tariff, to which all Democrats were committed, was embarrassed by engrafting on its provisions a direct tax, to which many Democrats were strenuously opposed.

Down with the Trusts!

Down with the Trusts! "We recognize in the Trusts and combinations, which are designed to enable capital to secure more than its just share of the joint product of capital and labor, a natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but believe their worst evils can be abated by law, and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

President Cleveland Indorsef.

"We heartly indorse the honest purpose and high ideals which have characterized the Administration of President Cleveland, and we renew to him the pledge of our earnest suport in all his efforts to secure the enactment of Democratic measures and the carrying out of Democratic policies. We have confidence that the people of the State, by their expression at the polis in November, will sustain the Administratio vember, will sustain the Administratio and by the re-election of Democratic Representatives in Congress show their apprecia ton of faithful service and their condemnation of that Republican incompetence which was responsible for the slastically cheered by delegates and mittee on Organization would name the Senator for Permanent Chairman. rumor to the effect that the ticket would

Treason to Cities' Home Rule.

Treason to Cities' Home Rule.

"Professing devotion to the principle of home rule, the Republican party prostituted the legislative power to political attacks upon Democratic cities, and passed blis legislating out of office nearly 1,500 Democrats appointed or elected by local authority, thereby outrageously interfering with local self-government and attempting to establish Republican minority rule in Democratic National Committees, with expensive counsel to fransack every department not occupied by Republicans, and has been obliged rejuctantly to confess that there were no iniquities to expose.

"Denouncing inconsistently as a Democratic gerrymander the last legislative apportionment, which was so far, nevertheless, that under it a Republican Legislature and Republican Constitutional Convention were chosen, the latter body, disregarding its high obligation, has devised and dares offer to the people a Republican gerrymander which makes outrageous discriminations against Democratic localities; denies the cities of the State fair representation; deprives the peopl of a nw enumeration and some protionment until 1995, and by these partisan devices seeks to rivet Republican control on the State for at least a decade, no matter how large the popular majority in opposition. "Against such high-handed partisanship we protest and invite all good citizens to join with us in our effort to deliver the State from this proposed political bondage.

The Constitutional Convention.

The Constitutional Convention.

"We condemn the Republican Constitutional Convention for the rank partisanship which has characterized its proceedings; for its subserviency to corporate influences; for its contemptuous disregard of the interests of labor; for its refusal to grant to cittes a larger measure of home rule; for the scandals which its sets have created, and for its conspleuous failure to satisfy public expectation by an intelligent and non-partisan revision of the Constitution.

Democratic Principles Reiterated. "We reaffirm the principles contained in our State platforms of 1833 and preceding years. We believe in simple, honest and frugal government; individual liberty; genuine home rule for municipalities; elevation of standards in the civil service; a revision of tax laws; an honest ballot and a fair count; the development of agriculture; the proper fostering of labor interests; the spread of education; all necessary public improvements, including the maintenance and development of the canals; the suppression of monopolies in the manufacture and sale of necessary articles of life, and the strictest accountability by every public efficer.

No Sumptuary Legislation.

No Sumptuary Legislation.

"We resolutely oppose all sumptuary legislation, which needlessly interferes with the personal liberty or reasonable customs of the people, and is now particularly threatened in the event of the election of the Republican candidates for Governor and Lieutenant-Governor.

As to the Excise Law.

"We believe in equitable excise legislation, which carefully regulates the sale of intoxicating liquors; prescribes just fees for licenses and preserves all needed restrictions for the maintenance of order and the gool of society. Such legislation we believe, was incorporated in ahe present Excise law, passed by a Democrati Governor, and we oppose any attempts trepeal it for the purpose of submitting in its place a sumptuary law, whos arbitrary and burdensome provisions at in needless restraint of individual libert bitrary and burdensome provisions are needless restraint of individual liberty ad are opposed to public sentiment and beral public policy.

"We unreservedly indorse the popu-ar, honest and intelligent administra-ion of Gov. Flower, and we record our spression of regret at his refusal to ecept a renomination. His high char-

Legislation for Labor.

"We favor all just legislation in the interests of labor. We commend Gov. Flower for his rigid enforcement of the laws to prevent the competition of convict labor with that of freemen. We favor such amendment of the so-called conspiracy laws as will make their provisions clear and easily understood so that they may be intelligently obeyed and rendered impartial in their aplication.

Religious Intolerance Denounced.

"We denounce as contrary to the spirit of our institutions any display of religious intolerance in political discussion. We deplore any attempt to proscribe candidates for office on the ground of religious belief by secret organizations or otherwise. The Democratic party, which has always stood or political and religious freedom, does not hesitate to condemn all efforts to create a distinction among citizens because of differences in fatth as unworthy of an enlightened age and abborent to the instincts of American freemen.
